**Test 1. Ask Question With Document attached**

**Test: What is the policy ID?  - PASS**

**Expected / observed:** Policy ID: HR-TRV-2026-04.

The workflow returned the policy ID and cited the ‘Document Information

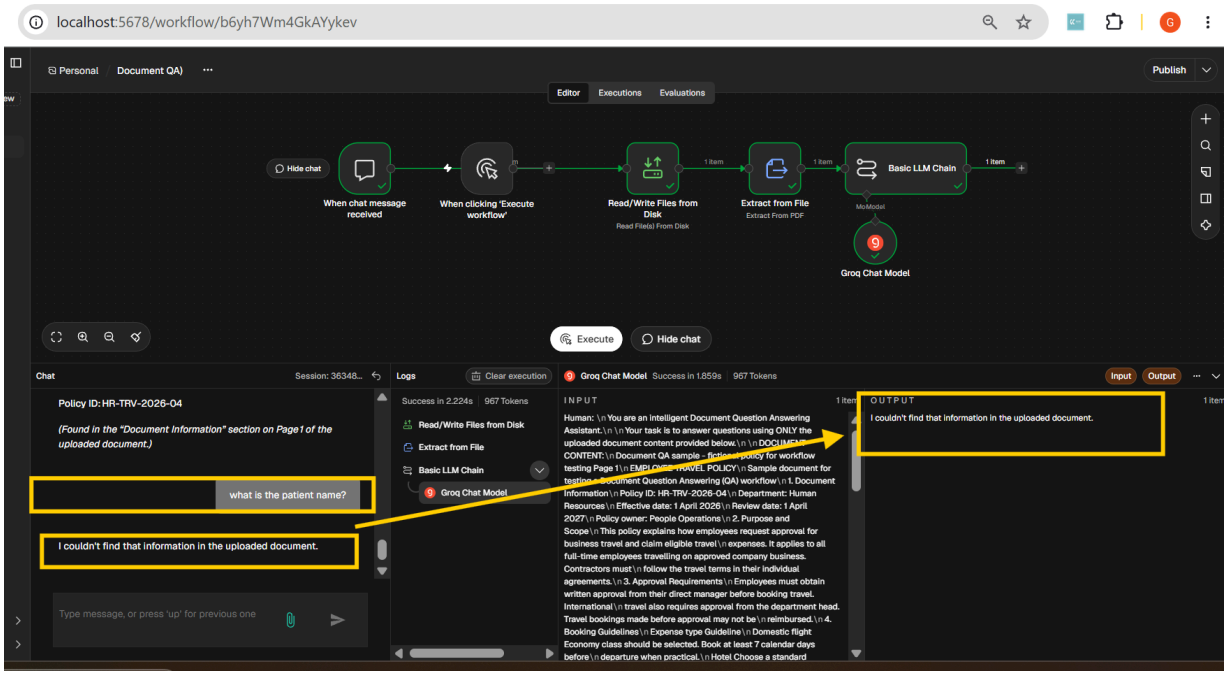

**Test 2. Question not supported by the document**

**Test: What is the patient name?  - PASS**

**Expected / observed:** “I couldn’t find that information in the uploaded document.”

The requested patient name is not present in the sample travel policy. The agent declined to invent an answer and returned the configured not-found response.

**Test 3. Multiple questions in the same chat**

**Test: What is the policy owner?  Then: What is the effective date?  - PASS**

**Expected / observed:** Policy owner: People Operations. Effective date: 1 April 2026.

Two follow-up questions were submitted in the same chat without attaching the PDF again, and both answers were returned. This confirms multi-question behavior in the tested session
